

# SOPHOS

## **NEW** Small Business Solutions

### Security made simple

Sophos' reliably engineered, easy-to-operate products protect over 35 million users in more than 150 countries worldwide. Its small business solutions are purpose-built for businesses with limited IT resources who need easy-to-use, reliable protection for Windows and Mac networks.

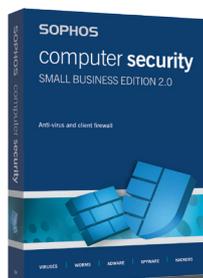

Straightforward user interfaces allow even non-technical users to install and manage the software quickly and easily. And with automatic updating against the latest threats, you can set it and forget it, safe in the knowledge that your networks will be free from viruses and spam.
